

# POLARCOOL™ A STAINLESS REPUTATION

Cooling relief on the spot to an array of industries such as production and warehouse facilities, sporting events, automotive and manufacturing plants, outdoor/exterior cooling, and many others.

**PolarCool™** provides effective spot-cooling for multiple applications that normally would be too costly to cool with refrigerated air. All units are designed for multiple applications and include high quality features, such as...

- **BEST EVAPORATIVE COOLER ON THE MARKET BUILT TO LAST**
- **Stainless steel housing: durability, low maintenance & long life**
- **Low water level sensor to prevent damage to pump**
- **Four size units available to fit your specific needs**
- **Operator friendly touchpad controls**
- **Up to 20 degree temperature drop**
- **Drain plug for easy cleaning**
- **Energy efficient cooling**
- **Extreme mobility**
- **MADE IN USA!**
